**APPROVE SETTLEMENT OF TENURED TEACHER GLORIA HOLMES-RICE V. BOARD OF EDUCATION OF THE CITY OF CHICAGO**

**THE GENERAL COUNSEL REPORTS THE FOLLOWING PROPOSED SETTLEMENT:**

**DESCRIPTION:** The parties to Gloria Holmes-Rice v. Board of Education of the City of Chicago reached a settlement agreement after an Illinois State Board of Education Hearing Officer issued a Decision and Order recommending the Board reinstate Holmes-Rice and issue her back pay. The CEO moved for dismissal against Holmes-Rice for violating the terms of her Warning Resolution and for corporal punishment of two students when she allegedly pushed a seven year-old female student into a desk and pulled a chair out from underneath a seven year-old male student causing him to fall to the floor.

The settlement agreement entered into between the parties requires a pensionable back pay amount of \$105,000.00 less legally required deductions, and a lump sum payment of \$25,000.00 as non-pensionable money to compensate Holmes-Rice for "observable personal physical injuries or physical sickness." For this consideration, Holmes-Rice will resign from her employment with the Board effective May 1, 2014, and will allow a "Do Not Hire" to be placed on her record. With this settlement, all litigation between the parties will come to an end. Each party will bear their own attorneys' fees, costs and expenses.

However, after demolishing the existing plaster ceiling, it was discovered that the existing conduits and j-boxes interfered with the new ceiling spring hangers and needed to be relocated in order to complete the base scope of work.   |                          |                      |                     |                         |                     |             |                  |              |

1. Kitchen 105 - Relocate speaker, call button, security sensor, clock receptacle and switch.
  2. Principal Office 110C - Furnish and install a dedicated receptacle and circuit breaker for printer and relocate fan coil.
  3. Classroom 311 - Furnish and install a dedicated receptacle and circuit breaker to fix the internet problem school had for years.
  4. UniswStaff Toilet 203 - Demolish obsolete heater, new layout, new chase walls built.
  5. Admin 110A/Classroom 111 - After overlay of wood sleepers, it was discovered that an additional layer would be required to achieve a sound floor.
  6. Media Center 107B - Double time and wire mold to wire up wrong computer tables.
  7. Classroom 213 - Add walls to hide existing bad condition discovered after demolition.
  8. New dedicated outlet for printer at 1st floor.
  9. Sand and refinish new doors after damaged by the teachers.
  10. Laborers to move and provide storage containers for school's unwanted furnishings.
  11. Boiler Room - Install dedicated circuit and wire recirculation pump.
- Provide additional electrical work for discovered power feeds in the wall between the multipurpose room and the corridor. Conduits were concealed inside the wall and their location could not be determined. As result of the discover conduits and junction boxes, additional environmental work was required in the area of work.
- This change order addressed the need to re-install projectors that were previously located in the rooms that were relocated as part of the project. Specifically, the old library and computer lab location had a ceiling mounted projector but the base scope of work addressed the power and data requirements but not the mounting hardware.
- Provide labor and material to create opening and install new door, frame and hardware at north east corner of Auditorium 120. This scope was not originally in the project but was added to provide proper egress around the new serving line.
- The contractor incurred some additional cost to the project when scheduled work on a Saturday could not be completed because the contractor was denied access to the school by CPS Security. The efforts to try to gain entry were stopped after about 3 hours and the contractors were sent home. Given the fact that the work was pre-arranged and that the contractor followed the procedures that were given to them, payment for show-up time is justifiable.

| 02/10/14    | 02/27/14 | Provide additional electrical work for discovered power feeds in the wall between the multipurpose room and the corridor. Conduits were concealed inside the wall and their location could not be determined. As result of the discover conduits and junction boxes, additional environmental work was required in the area of work.   | \$4,700.12              |                     | Discovered Conditions |                  |             |
| 12/20/13    | 02/09/14 | This change order addressed the need to re-install projectors that were previously located in the rooms that were relocated as part of the project. Specifically, the old library and computer lab location had a ceiling mounted projector but the base scope of work addressed the power and data requirements but not the mounting hardware.  | \$613.04                |                     | School Request        |                  |             |
| 12/20/13    | 02/13/14 | Provide labor and material to create opening and install new door, frame and hardware at north east corner of Auditorium 120. This scope was not originally in the project but was added to provide proper egress around the new serving line.   | \$7,191.85              |                     | Owner Directed        |                  |             |
| 02/10/14    | 02/19/14 | The contractor incurred some additional cost to the project when scheduled work on a Saturday could not be completed because the contractor was denied access to the school by CPS Security. The efforts to try to gain entry were stopped after about 3 hours and the contractors were sent home. Given the fact that the work was pre-arranged and that the contractor followed the procedures that were given to them, payment for show-up time is justifiable. | \$3,153.63              |                     | Other                 |                  |             |

CPS requested that a temporary fence was put up to enclose the area.   |                          |                      |                     |                         |                     | Discovers Conditions |                  | \$4,733.09       |

The existing boxes were not standard and custom plates would have been cost prohibitive. Instead it was decided to fill the voids with masonry.
