RESCIND BOARD REPORT 07-0627-PO2 ADOPT A NEW PHYSICAL EDUCATION POLICY

THE CHIEF EXECUTIVE OFFICER RECOMMENDS:

That the Board rescind Board Report 07-0627-PO2 and adopt a new Physical Education Policy.

PURPOSE: The Illinois School Code, 105 ILCS 5/27-6, requires that students receive daily physical education in both elementary school and high school with limited exceptions enumerated for individual student waivers, modifications or excused absences. Chicago Public Schools (CPS) holds a waiver issued by the state to excuse students in grades 11 and 12 from the daily physical education requirement without the need for an individual student request to be excused and this waiver expires at the end of the 2013-2014 school year. The District has elected to not seek renewal of this state waiver and therefore this policy establishes requirements for 11th and 12th grade students to individually request a waiver from daily physical education as permitted by the Illinois School Code. This policy also establishes planning requirements for high schools to transition course scheduling in anticipation of the state waiver ending and also for elementary schools to adjust programming as needed to align with the daily physical education requirement.

The Board values a well-rounded curriculum that includes physical education for both elementary and high school students. This policy establishes the standards through which physical education is provided to students to ensure the development of physically literate individuals who have the knowledge, skills, and confidence for academic success and lifelong health. This policy reflects the core concepts enumerated in *Minds in Motion*, the District's initiative to develop and galvanize support for a strategic plan to strengthen physical education for all CPS students.

POLICY TEXT:

- **A.** <u>Physical Education Instruction</u>: All schools shall provide every elementary and high school student with high-quality physical education instruction that is:
- 1. Provided daily to elementary and high school students
- 2. Led by a teacher who meets the qualification requirements established by the state
- 3. Developed from standards-based curriculum
- 4. Informed by regular and varied assessment
- 5. Assessed using comprehensive and transparent grading criteria
- 6. Inclusive of all diverse learners, abilities, fitness levels, ethnicities and genders; and
- Evaluated using tools adapted to the physical education environment, including the Physical Education Addendum to the Framework for Teaching

Instruction shall maximize moderate to vigorous physical activity time for all students to achieve and maintain a health-enhancing level of physical fitness. In alignment with the Board's Local School Wellness Policy for Students, instruction shall engage all students in moderate to vigorous physical activity during two thirds of physical education class time.

B. Physical Education Scheduling:

- 1. <u>Grades K 8</u>: Elementary schools shall provide students in kindergarten through grade 8 with a minimum 30 minutes of daily physical education or the equivalent of 150 minutes per week. It is recommended that elementary schools provide students in grade 6 through grade 8 with daily physical education for an average of 225 minutes per week. Schools may provide health education, including sexual health education as outlined in the Board's Sexual Health Education Policy, as a part of the physical education program in grades 5-8. In such cases, a maximum of 60 minutes per week of health education may be included as part of physical education programming in grades 5-8. Recess minutes may not be used to satisfy any portion of the physical education instructional minutes required hereunder.
- 2. <u>Grades 9-12</u>: Effective at the start of the 2014-2015 school year, all high school students shall be scheduled in a physical education course each semester in every grade level (9-12) except when an exception has been authorized in accordance with Section E below. The CPS Physical Education Manual shall specify which CPS courses qualify as a physical education course for purposes of compliance with this policy. If a high school operates on a block schedule, students in grades 9-12 shall engage in physical education in the same time increments as other core curricular courses throughout the week, quarter, semester, year, or time in high school. A block schedule is defined as a system of scheduling that entails longer class periods that meet fewer times per week, quarter, semester, or year.
- C. <u>Limited Duration Excused Student Absences in Elementary School and High School:</u> A student with an injury or medical condition who presents an appropriate excuse from a person licensed under the Medical Practice Act shall be excused for a limited duration from participation in a physical education class or activity for the period of time covered by the Doctor's authorization. A student may also be excused from participation from physical education class when a parent/guardian presents an appropriate excuse, including, but not limited to reasons related to religious observances or prohibitions. In all such cases, the parent/guardian shall provide written documentation, as specified in the CPS Physical Education Manual, to support the need to be excused for a limited duration. Modified physical education activities shall be provided for students whose physical or emotional condition prevents their participation in the regular activities and course of study, as determined by a person licensed under the Medical Practice Act.
- **D.** Special Education: Any student requiring adapted physical education shall receive that service in accordance with their individualized education program (IEP). A school may, in accordance with the procedures outlined in the CPS Physical Education Manual, excuse a student with an IEP from a physical education course if the student is participating in an adaptive athletic program outside the school setting.

Students in grades 3-12 who are eligible for special education may be excused from participation in physical education class if the student's parent/guardian agrees that the student must utilize the time set aside for physical education to receive special education support and services, which agreement or determination must be documented made part of the student's IEP.

- E. <u>Authorized Exceptions to Physical Education Course Enrollment in High School</u>: The Board recognizes the exceptions to the daily physical education requirement authorized by the Illinois School Code which are currently the following:
- 1. Enrollment in Junior Reserve Officer's Training Corps (JROTC) Program in Grades 9-12;

2. Enrollment in academic classes in Grades 11 and 12 required for on-track high school graduation, provided that the failure to take such course would result in the student being unable to graduate;

NOTE: This exception may include the following circumstances: (i) a student fails a course and must retake the required course in Grades 11 or 12 in order to graduate, (ii) a student is enrolled in a specialized diploma/certification program or dual degree program that requires specialty courses in grades 11 and 12 in order to graduate (e.g. International Baccalaureate Diploma, Early College Program that leads to an Associate's Degree.) Exceptions under this Section E.2. are permitted only in accordance with the Physical Education Manual and only when scheduling of the course(s) required to graduate do not allow room in the student's schedule for physical education courses or elective courses.

 Enrollment in academic classes in Grades 11 and 12 required for college admission, provided that the failure to take such classes would result in the student being denied admission to the college of their choice:

NOTE: This exception may apply when a student is required to complete a particular course or courses to be considered for entry in a particular college or college program (e.g. student must take calculus as a prerequisite for entry in a university's engineering program). Exceptions under this Section E.3. are permitted only in accordance with the Physical Education Manual and only when the course requirements for college admissions do not allow room in the student's schedule for physical education courses.

- 4. Ongoing participation in an interscholastic athletic program in Grades 11 and 12, if student participated in the interscholastic athletic program(s) during the prior school year; or
- 5. Enrollment in a marching band course for credit during the regular school day in Grades 11 and 12.

High school students may request an exemption under this Section E. in accordance with the procedures outlined in the CPS Physical Education Manual. Approved exemptions: (1) apply only to the current school year, and (2) require the student to enroll in another academic course in place of physical education.

F. <u>Physical Education Support and Infrastructure</u>: Schools shall designate safe, clean and maintained spaces, both indoor and, if available, outdoor for physical education classes. Administrators shall strive to ensure that other school activities do not displace physical education classes from their designated spaces.

Schools shall strive to provide equipment that supports all students and all aspects of the physical education curriculum. Schools shall also work to ensure that physical education teachers and classes have access to tools and technology for instruction, evaluation, and communication. Administrators and evaluators shall utilize evaluation tools that are adapted to the physical education environment in accordance with the CPS Physical Education Manual.

It is recommended that all physical education teachers participate in annual professional development on effective practices for physical education for a minimum of seven contact hours. School administrators shall encourage physical education teachers to attend relevant professional development opportunities designed for physical educators on school-wide professional development days.

G. Physical Education Oversight and Accountability:

- 1. **Schools:** By July 1, 2014, all elementary and high schools shall prepare and submit a three-year physical education action plan that identifies specific annual activities, enhancements and measurable outcomes, as indicated in the CPS Physical Education Manual, to implement the requirements of this policy and address any programming variances or gaps that require adjustment.
- 2. **Office of Student Health and Wellness:** The Office of Student Health and Wellness shall oversee school implementation and compliance with this policy and, in doing so, shall:
 - a. Provide technical assistance and support to assist schools with implementation of the policy and improve programming functions;
 - Ensure schools are offered support services through various Central Office departments and Network offices;
 - Establish a process for identifying and distributing resources made available by qualified agencies and community organizations for the purpose of collaborating with schools to enhance implementation of this policy;
 - d. Establish a process to gather regular reporting and feedback from individual schools, community partners, students and parents on the implementation of the policy;
 - e. Conduct periodic evaluations and report on district-wide and individual schools' compliance with the Policy to the Board twice per calendar year;
 - f. Expend grant funds awarded by the United States Department of Education to Chicago Public Schools under the Carol M. White Physical Education Program Grant, a three-year grant to support the implementation of high-quality daily physical education for elementary and high school students across the district; and
 - g. Monitor individual student waiver requests granted by high schools.

3. **Physical Education Manual:** The Chief Health Officer or designee is authorized to develop, issue and update the CPS Physical Education Manual and any related guidelines, standards and toolkits to ensure the effective implementation of this policy.

APPROVE THE CHICAGO PUBLIC SCHOOLS' NCLB DISTRICT IMPROVEMENT PLAN FOR THE 2013-2014 AND 2014-2015 SCHOOL YEARS

THE CHIEF EXECUTIVE OFFICER RECOMMENDS:

That the Board approve the Chicago Public Schools' NCLB district improvement plan (DIP) for the 2013-2014 and 2014-2015 school years.

DESCRIPTION: The Chief Executive Officer (CEO) is requesting approval of the two-year DIP summarized on the attached Exhibit A which is required under the federal No Child Left Behind Act (NCLB). NCLB requires that DIP identify strategies the district is pursuing or plans to pursue in order to make Adequate Yearly Progress (AYP).

In Illinois, any district failing to make AYP in reading and mathematics scores for five consecutive years or more must submit a school board-approved NCLB District Improvement Plan to the Illinois State Board of Education (ISBE) for review. CPS has not made AYP for ten consecutive years. The attached DIP includes a range of strategies addressing areas in which the District failed to meet AYP including reading and mathematics for all students and the following subgroups: various racial/ethnic subgroups, English Language Learners (ELLs), students with disabilities, and economically disadvantaged students. The DIP also contains content related to graduation rates for all students.

The DIP, which is fully aligned to the CPS Action Plan (www.cps.edu/actionplan) was completed collaboratively across a variety of CPS departments using the Rising Star system provided by ISBE. Rising Star is a web-based planning tool that includes the following components:

Self-Assessment: Districts use this section to assess their current level of implementation on 50 indicators (41 required) of effectiveness developed by the Center on Innovation and Improvement (www.centerii.org). For each required indicator, CPS provided a description of the current level of implementation, identified a priority rating and opportunity rating, and determined whether a plan would be developed for the indicator.

Plans: Districts use this section to develop a plan for high priority indicators. For those indicators for which CPS determined a plan would be created, CPs provided a description of what successful implementation will look like and specific tasks that CPS will undertake over the next two years.

In addition to missing AYP targets, CPS also failed to meet Annual Measureable Achievement Objectives (AMAOs) for ELLs. For this reason, the DIP includes specific strategies and activities the District will take to improve outcomes of ELL students, as well as the completed "ELL template for Title III AMAO's" report. In addition, CPS has been identified by ISBE as "Needs Assistance" under the LEA Determinators process under the Individuals with Disabilities Education ACT (IDEA). For this reason, the DIP includes the completed Needs Assistance 2 (NA2) template, which outlines corrective actions CPS is taking based on specific findings from ISBE.

The DIP also addresses the District's eligibility for the Race to the Top (RT3) grant through the completion of select RT3 indicators. For these indicators, CPS addressed expectations specific to RT3 to ensure that actions around these indicators were strategically aligned to ISBE and US Department of Education requirements. The DIP includes required assurances for participating school districts.

Monitoring and support of the DIP will be the responsibility of the Office of Accountability with the assistance of the Chief Executive Office, the Chief Instructional Office, and the Talent Office. The Chief Executive Officer or designee is authorized to modify the DIP as necessary throughout the 2013-2014 and 2014-2015 school years in order to keep information current and respond to ISBE and US Department of Education requirements.

By submitting the DIP, the Board of Education and CEO certify to ISBE that the following assurances have been met:

- Strategies and activities have been founded in scientifically based research as required by NCLB, Section 1116(b)(3)(A)(i) and as defined in NCLB, Section 9101(37).
- Technical assistance provided by the district serving its school is founded on scientifically based research [NCLB, Section 1116(b)(4)(C)] as defined in NCLB, Section 9101(37).
- The plan includes strategies and activities that support the implementation of the New Illinois Learning Standards Incorporating the Common Core and ensures alignment of curriculum, instruction, and assessment with the New Illinois Learning Standards Incorporating the Common Core.
- The district will spend at least 10 percent of the funds made available under Title I, Part A, Subpart 2 of NCLB, for the purpose of providing high-quality professional development.

FINANCIAL: Within budgetary appropriations.

Assessment	

	CPS recently launched a new school improvement planning process, called the Continuous Improvement Work Plan (CIWP). The CIWP consists of four components: self-assessment on the School Effectiveness Framework (aligned to Rising Star), goal setting on scorecard indicators, development of mission and
	strategic priorities, developing a set of project milestones for acting on strategic priorities. In the spring of 2012, Networks and schools collaborated on the
	development of CIWPs that addressed each school's strategic priorities and that are aligned to the district's priorities. Many schools identified priorities
	directly impacting student academic, social emotional and behavioral development, and some identified priorities that also address physical development.
	During the 2012-13 school year, schools regularly reviewed progress on their CIWP with Instructional Leadership Teams (ILTs) and with their Network chiefs.

	new CIWP template and to update the CIWP tool as necessary to ensure that our planning processes are as effective as possible. This will include building a
	web-based system to improve the ease of data entry, version control, and monitoring. This will also allow CPS to better track school progress and aggregate
	data across the networks and district. We are also working with various departments to provide guidance for schools on how to develop priorities and
	milestones in various areas, such as: Common Core implementation, social/emotional and behavior supports, physical education and health, arts integration,
	and more. Finally, network teams, including network data strategists, will be provided throughout the year with opportunities for ongoing professional
	learning and collaboration so that they are prepared to support school-based teams on the development, implementation and monitoring of their CIWP.

District Continuous Improvement Plan with RTTT3 SOW

Schools currently have established Instructional Leadership Tean and Teacher Team structures that include Bilingual Lead Teachers or other teachers of ELLs systems, structures and school data. Bilingual Instructional Support Leaders (ISLs) collaborate and provide instructional support to bilingual and mainstream with Networks through monthly dashboard review and professional development. Networks are also responsible for helping to build and monitor the quality of improvement through monthly dashboarding. DOLCE meets regularly with ISLs and Bilingual Lead Teachers and specific school principals based on the need of classroom teachers to build capacity to use effective language and literacy practices in teaching ELLs. Continuous Improvement cycles are also established intended intensity of strategic supports. These teams will maintain regular contact and convene periodically to remain abreast of each other's efforts and instructional improvement. In addition, Networks bring together all ILTs each quarter to learn about major instructional initiatives and reflect on their ILT structures, a process that will be further supported with a thorough School Quality Review process. Central office teams also focus on continuous sustain implementation of guiding principles, program models and effective instructional models for robust language and academic supports for ELLs. to support cycles of continuous improvement. ILTs typically meet at their schools at least twice a month to analyze student progress and plan for Evidence that this indicator has been fully and effectively implemented:

Evidence that this indicator has been fully and effectively implemented:	Restructuring plans are developed within the budget available to the school. In cases where additional funds are not provided, schools are expected to reallocate resources in the CIWP and associated budget to ensure successful implementation of the restructuring plan. CPS receives additional funding through a federal School Improvement Grant to implement intensive reforms in select restructuring schools. Fifteen high schools currently receive additional funding through the School Improvement Grant (SIG). Using SIG funds, CPS is able to fully implement intensive, sustainable reforms to increase student achievement at its lowest performing high schools. For schools that receive School Improvement grants, OS4 works with the school to ensure a comprehensive budget allocation to ensure success. For exchools that receive School Improvement grants, the Office of School Improvement works with the school to ensure a comprehensive budget allocation to persure success. Level of Development	Initial: Full Implementation
Evidence that this indicator has been fully and effectively implemented:	Restructuring plans are reviewed by the Network offices and the Office of Accountability to ensure that governance changes are included, and that the CIWP has been updated to reflect the restructuring plan, as applicable. The Board of Education approves both the restructuring plan and the CIWP. The District's Office of Strategic School Support Services (0S4) works with select restructuring schools to radically and quickly transform them through the use of a turnaround, restart, or transformation model. Funded through the School Improvement Grant (SIG), OS4 implements intensive reforms in select schools in order to substantially raise student achievement and make adequate yearly progress. At CPS, the SIG is being used to implement the transformation, restart and turnaround intervention models at fifteen high schools. The Department of Language and Culture (DOLCE) and the Office of Diverse Learner Supports and Services (ODLSS) meets with OS4 to ensure items related directly to services for English language learners and diverse learners including but not limited to compliance concerns are part of the conversation for schools in restructuring. Furthermore DOLCE and ODLSS receives a report of schools going through the process of restructuring to determine if ELLs and diverse learners will be affected and how to best support them.

쏬 The district will ensure that school improvement and restructuring plans include research-based, field-proven programs, practices, and models. (1138) 1807

Evidence that this indicator has been candid fully and effectively implemented: system	CPS currently uses a principal eligibility process to assess all potential principal candidates and their readiness to be an effective school leader. Principal candidates must pass the eligibility process in order to be appointed as a CPS principal. The newly developed principal competencies and principal evaluation system ensure that a highly effective, empowered, and accountable principal is leading each CPS school. Furthermore, the district will guarantee that DoLCE and OSES will play an active role in the district will guarantee that DoLCE

Level of Development	Initial: Full Implementation
Evidence that this indicator has been fully and effectively implemented:	CPS has established six principal practice competencies, including: Championing teacher and staff excellence through a focus on continuing improvement; Creating powerful professional learning systems that guarantee learning for students; Building culture focused on college and career readiness; Empowering and motivating families and the community to become engaged; Relentlessly pursuing self-disciplined thinking and action; and Leading school toward achieving the vision of high expectations for all students. All principals must effectively show their ability in this area to earn eligibility as a principal candidate, and principals are evaluated annually on these competencies through the principal evaluation system. Further, Pillar 4 of the CPS Action Plan focuses on committed and effective teachers, leaders and staff. Pillar 4 identifies a plan to attract high quality talent system-wide, and to design and implement a system to induct and support new leaders. It also establishes a plan to provide ongoing, differentiated professional development for experienced leaders, as well as appropriate skills and capacity building for all employees.

For schools that are not on probation under the CPS accountability system, LCSs have approval authority over the For all schools, a school improvement team is established annually to write or update the school improvement plan. This team includes 6-12 members, including to develop a school improvement plan and budget designed to address the areas of academic deficiency that led to the school being on probation or in school submitted to the Board of Education. CPS continues to engage in significant local efforts to link student data across local systems in support of integrated learner profiles, with a focus on those data elements that will be needed to implement ISLE applications in 2014. Questions still remain about the specific data elements required for ISLE integration, and to replace the existing feeds of student data for ISBE SIS. Additional engagement with principals representing ISLE, the IlliniCloud, and inBloom are required to answer outstanding questions regarding data security, contracting relationships, ongoing financial support, and implementation plans for the software packages once they are equeloped. CPS representatives sit on both the ISLE and inBloom advisory committees and are active participants in the process of steering the ISLE initiative towards nostlive outcomes for CPS. Success in this endeavor will require that CPS and ISLE create and share a common data dictionary and definitions for key performance metrics and root data elements. The technical objective for the Phase One implementation with the ISLE system involves a nightly feed of critical teacher and student profile data from CPS to ISLE. The data provision would occur in much the same fashion as the existing nightly fed to the ISE SIS from CPS. Specifically, CPS will establish a data feed to the new ISLE system via a SIF-based data integration platform. Changes to stored values will be captured within the CPS data center and the resulting "delta" will be transmitted to the ISLE ODS in the IlliniCloud.

		Integration Objective (User Experience): The CPS vision for participation in ISLE incorporates an element that is vital to the user experience: unified login credentials. Specifically, CPS is expecting that the ISLE team will architect a solution that enables CPS teachers to use their existing login and password to access the default/required ISLE toolset once implemented.

Under this model, schools receive a per-pupil amount for every student enrolled, weighted by grade level and by "LRE" (Least Restrictive Environment category for students with diverse learning needs). CPS also closed 49 under-utilized schools and one program and transitioned the students to their new Welcoming Schools. This effort helped the district serve students more efficiently and effectively, allowing us to focus our resources in fewer schools.

Current impleme	Current level of development or implementation:	CPS' Office of Talent currently has strong external partnerships that assist the district in recruiting, selecting, and supporting school staff to work in high needs schools. These programs include Chicago Teaching Fellows, Teach for America, and AUSL for teachers and New Leaders for New Schools, UIC Principal residents, and the newly formed Chicago Leadership Collaborative (CLC). These programs provide hundreds of qualified and specialized teachers and school leaders capable of addressing the needs of Chicago's highest-needs students and communities. CPS Office of Talent is actively recruiting bilingual teachers and principals. The Department of Language and Cultural Education provides direct support and guidance for the districts English language learner and world language personnel. It develops key program guides, tools, and resources to strengthen ELL and world language programs and ensures that schools are in compliance with state, federal and district mandates that govern ELL education. 7	How it will look when fully met:	In order to fully meet the objective, CPS must not only have active pipeline strategies that are already in place, but needs accurate performance data with which to assess the success of various pipelines. The implementation of PERA and new performance evaluations will enable CPS' Talent Office to assess pipeline providers of teachers and school leaders and expand those that deliver candidates who are highly effective with high-needs student populations, such as Students with Disabilities and English Language Learners. DoLCE's diagnostic program tools and protocols (currently in development) will provide the standard of excellence with regard to Staff Quality and Professional Development for programs designed to serve ELLs and guide recruiting, training, and support of personnel. DoLCE and the Talent Office will collaborate to ensure that this vision for excellence is embedded in metrics, evaluation and hiring practices.

CPS has made major investments over the last several years in both data tools and training to support schools in their use of data. CPS has constructed a data schools through a performance management dashboard. The dashboard displays real time data on year-end and interim results. In addition to the technology continued development of the skills of our network data strategists. We have been working on the implementation of two major technology upgrades. Beginning in 2012-13, schools began to shift towards implementation of the Common Core Standards. To facilitate this shift, the district introduced the new CPS rameworks for Content Standards in Literacy and Mathematics that lay out required critical areas of focus for each quarter and provide tools and templates for teachers to use to plan instruction aligned to the needs and abilities of all learners. In addition, the new CPS Framework for Teaching reflects the shifts in planning and instructional practice the Common Core Standards require. This alignment between planning tools and measures of effective instruction helps provide clear guidance for teachers on expectations for both curriculum and the delivery of instruction. Both guidance documents are in full implementation this school year (2013-14). Finally, the district is currently vetting supplemental instructional materials for schools in the form of reading levels.

		The District will provide all teachers of literacy and mathematics with the new CPS Frameworks for Content Standards in ELA and Math to support teachers in aligning units of instruction with the Common Core State Standards. The District will also provide teachers with CCSS-aligned beginning-of-year and end-of-year assessments along with quarterly interims so that teachers can make adjustments to unit plans and address the needs of particular students or groups of students. The District will also provide guidance and training on using the Illinois English Language Proficiency Standards and their simultaneous implementation with the CCSS to teachers of ELLs. The District will

	How it will look when fully met:	also provide all teachers with the new CPS Framework for Teaching, which describes effective delivery of differentiated instruction. This tool will support ongoing observation and feedback of teachers to help them improve their delivery of differentiated instruction. In order to ensure appropriate training and support, the District will provide quarterly professional development on the Content Frameworks and Framework for Teaching for the Network teams. In addition, CPS is partnering with Harvard University's Graduate School of Education and the CAST Institute to train Network leaders on principles of universal design for learning. This training will empower Network leaders with the knowledge and skills necessary to embed these principles in their summer teacher training. The goal will be for teachers to understand high leverage ways to design Common Core aligned instruction to meet the needs of students of Naried learner profiles. Each Network will design an institute for their teacher leaders to train them both on universal design principles on the Cortent Frameworks and facilitating this learning with their colleagues. After the summer training, teachers will build units of study, in line with the Content Frameworks and facilitating this learning with their colleagues. After the summer training, teachers will build units of study, in line with the Content Frameworks, with these universal design principles embedded. During the school use of programs and materials resulting from the Academic Intervention/Enrichment RFP will also provide students with additional, achievement-level instruction to better meet their needs. Networks will primarily be responsible for supporting principals in implementing universally designed, Common Core aligned curriculum through summer teacher training, regular principal meetings, and instructional Leadership team workshops, and direct support to schools. Networks will also monitor the quality of data analysis and instructional planning for varied learners through a school quality

This suite of assessments will evolve to reflect alignment to Common Core Standards and use of performance assessment in alignment with the CPS Content Frameworks in Literacy and Mathematics, REACH and Framework for Teaching. In preschool, children are assessed three times each year with the observational tool Teaching Strategies GOLD. This tool allows teachers to track each child's progress and provides teachers with the information necessary to develop plans for groups and individual children as they move through the developmental continuum. In the primary grades, schools use a primary literacy assessment, REACH Performance Tasks (Type III assessments) and benchmark assessments to measure foundational skills and comprehension and students planning comes from the previous Spring assessment. We also have in place Benchmarks for K-12 aligned to the CCS5, that ask for students to demonstrate learning aligned to the depth and breadth of the standards. We also administer the ISAT assessment to cCS5, that ask for students to demonstrate learning aligned to the depth and breadth of the standards. We also administer the ISAT assessment to provide a curriculum with CCS5 built-in is being trunchented with fidelity. We have a Spring EPAS post test and a winter EPAS check in test to measure growth across the year, for EXPLORE PLAN and ACT. We also administer PSAE to all students including ELLs at the end of the junior year. In addition, the District will continue to work with and assist schools to ensure that all students identified by the State as ELLs are assessed annually for English language proficiency in a timely manner with ACCESS for ELLs®. Our District office and our Network offices will regularly review the results of these assessments and include this review in continuous improvement conversations with each school. Finally, the District will be releasing an

These Frameworks are being developed by the Departments of Literacy and Math, in collaboration with Early Adopter CCSS pilot schools, and are modeled after by the PARCC model content frameworks. They provide quarterly expectations and benchmarks for implementing the Common Core standards and workplace readiness expectations. This Course of study, led by the Academic Learning and Supports unit, will provide the backbone for changes to graduation requirements and will also lead to guidance to teachers, parents and students as they develop their individual learning plans including, on what the key headedneit, social model career-ready expectations are at each level. CPS also currently offers STEM Programs of Study (POS) in various CTE pathways such as head to build better articulation into 2-year and 4-year postsecondary institutions, and to strengthen industry and colleges. However, there is need to build better articulation into 2-year and 4-year postsecondary institutions, and to strengthen industry engagement in implementation of STEM POS in cPS. CPS also recently launched an Individual Learning Plan that spans grades 6-12 and is currently mostly focused on scaling use of the ILP in grade 9. By school year 2013-14, CPS plans to pilot the Individual Learning Plans to the middle grades. Going forward, CPS intends to strengthen and scale its STEM POS, in particular in the near-term via its Early College STEM Schools (ECSS), which will each offer two or more Information Technology programs of study, and which will all provide opportunity to earn significant college are cerdit while in high school, which will partner closely with industry partners to integrate work-based learning into the POS, which will drive core and CTE curriculum integration across the entire POS. Current I	Current level of development or implementation:	pillar 2 of the Action Plan focuses on systems of support that meet student needs and specifically commits to providing "timely and targeted school-wide support to academically under-served neighborhood schools." In furtherance of this commitment, the Chief Executive Officer has created the new Office of Straegic School Support Services (054) to provide high need neighborhood schools with the comprehensive and coherent resources and supports they reage in whole school transformation and ridental chievement. Osf manages a network of 22 "Reinvestment Schools" (21 elementary schools and 1 secondary school) and 15 secondary schools receiving federal School Improvement Grants. These schools have generally been on probation and in federal or state school improvement status for years and have affirmatively agreed to join OS4 and commit to the rigorous work of whole schools and 1 secondary schools and 2 secondary school and 2 secondary schools and massures the quality of teaching and learning in the school and bow well the school singulations work and measures the quality of teaching and fearning in the school and how well the school is organized to support this work. The SDR culminates in a formal report that includes findings and recommendations. This report provides valuable insight into "what is going on behind the numbers" and empowers the school community to understand the obstacles to student achievement and how they may be covered with these reports in hand, schools will soon begin revising their school improvement plans (commonly referred to as Continuous Improvement Work Plans or CLWPs) to address the inignest priority needs and then will implement such plans with the surport of O34. One of the critical supports O54 provides to schools will soon begin revising their school improvement plans with the surport of other scho

In addition to the guidance provided by the former Rtl Toolkit, a focus on intervention blocks has been incorporated into our Full School Day guidance in an effort to ensure that all students who are struggling receive Tier II and Tier III intervention during the school day during a designated time that does not interfere with core instruction. The development of comprehensive academic intervention plan with associated professional development will be a focus area in the future. DoLCE is partnering with the Department of Literacy to ensure that professional development focused on the implementation of the Common Core standards to address Tier I instruction incorporates principles of instruction for linguistic diversity, language and academic proficiency of ELLs. The Office of Early Childhood Education (ECE) developed a plan of action in conjunction with OLCE to initiate the screening of preschool children who may be eligible for ELL services. This plan was piloted during the 09-10 school year and was fully implemented in all CPS schools during the 10-11 school year. The early identification of children in monitored by OLCE just as at all other grade levels. In addition, CPS has established district-wide behavioral interventions for students, whose in-class or in-school behavior is a barrier to their learning including anger management and trauma treatment. CPS will continue to develope early, in-class interventions as well as more intensive interventions to address behavioral barriers to learning. Also, the district CPS will continue to develope early, in-class interventions as well as more intensive interventions to address behavioral barriers to learning. Also, the district to develope and Summer Support for English Language Learners, these two programs provide intensive ready mathematics, and writing to decrease the achievement gab by providing focused and differentiated Support to ELLs.

7	How it will look when fully met:	Core instruction aligned to content standards and is universally designed for all students. All students, including English Language Learners, students with diverse learning needs, and gifted students, are expected to reach graded-level academic goals and develop positive social-emotional skills. It is expected that of students receiving core instruction, 80% will be proficient. For behavioral core, this also means all schools have in place systems and structures to support positive academic behavior and social-emotional learning in all settings. Schools have in place systems and structures to support positive academic behavior and social-emotional learning in all settings. Schools have in place systems to identify the needs of all students throughout the school year, based on multiple data measures li.e., ISAT, district assessments, attendance, suspension, grades). Data are analyzed and instruction and intervention is tableated and instruction is tandents and evaluate student progress, schools again use multiple measures, to guide and inform instruction and intervention. Strategic instruction and/or behavioral intervention is targeted additional support for some students who after receiving quality core instruction, need additional time and/or rategeted instruction to reach proficiency on specific skill or standard.

These sessions look different from Network to Network, but across Networks Chiefs of Schools have regular data-based management touch points with their schools. DoLCE provides Networks with ELL data and participates closely with networks during the performance review sessions to ensure goals and expectations are established for measuring the growth and progress of ELLs language and academic proficiency during these sessions. Additionally, ODLSS also provides Networks with data for students with diverse learning needs through the annual "snapshot" process. Schools are currently working to develop continuous improvement work plans that outline milestones for the strategies they plan to implement in the upcoming school year. Chiefs of Schools are beginning to incorporate progress monitoring on these work plans into their regular performance review sessions.

Evidence that this indicator has been fully and effectively implemented:	CPS has divided its schools into geographic Networks. Each Network of schools is served by a Chief of Schools, a Deputy Chief of Schools, a data strategist, a family and community engagement specialist and a team of Instructional Support Leaders (ISLs), each with a specific focus (e.g. Math content, ELLs, etc.). Current level of development or implementation:	We are currently in Model Content Frar disciplinary literacy Framework v2.0 has Content Framewor mathematical cont Framework will be a released for implen Science Standards.	We are currently in full implementation for CCSS-Literacy and have developed a 2.0 version of our Literacy Content framework that is aligned to the PARCC Model Content Frameworks and provides resources and tools to support teachers with the implementation of CCSS-L. The framework provides guidance on disciplinary literacy and writing across contents. We are in Year 2 of a 3 year transition to full implementation of the CCSS for Mathematics. A Math Content Framework v2.0 has been released for implementation in SY13-14. It contains Planning Guides aligned to the Major Content outlined in the PARCC Model Content Framework for grades K-Algebra II/Trigonometry. Included are content expectations for each grade/course, high-quality tasks that integrate mathematical content and practices, recommended assessments, sample units, and additional resources. The final version (version 3.0) of the Math Content Framework will be released for implementation in SY13-14. Potential updates will be informed by the state's upcoming decision about the adoption of the Next Generation Science Standards.

7	How it will look when fully met:	The District will provide all K-12 teachers with the new CPS frameworks for Content Standards that are aligned with the Common Core State Standards, and eventually, Next Generation Science Standards (Science) - which represent a set of expectations for student knowledge and skills that high school graduates need to master to succeed in college and careers. CPS Frameworks for Content Standards will apply Universal Design for Learning principles and they will include planning guides (which define the scope of content for each grade level that teachers across CPS must teach) and a set of tools to support planning and implementation of the Standards. To further support curriculum expectations the District will provide CCSS aligned beginning-of-the-year and end-of-year assessments along with quarterly benchmarks that all teachers will use to make adjustments of unit plans and address the needs of all students or groups of students. The District will also develop guidance for content area teachers (Science, Social Science, etc) with a focus on content area literacy and academic language with the help of our CCSS Early Adopter Schols. All tools for content areas will employ a Universal Design for Learning approach and include specific guidance for instructing English Language Learners using illinois ELP Standards and WIDA tools (and the Spanish Language Arts and SALSA standards and teachers on instructing students with disabilities. Network teams will deliver ongoing professional development for principals and teachers on the Content Frameworks to ensure effective planning and implementation.

Evidence that this indicator has been fully and effectively implemented:	Principals build into the professional learning cycle, where appropriate, time for support staff to engage in learning that aligns and applies to their work needs. Principals also provide release time for role-specific professional development opportunities (e.g. clerks will attend Oracle training which is specific to their role and responsibilities, Bilingual Lead Teachers attend quarterly forums organized by DoLCE, Case managers attend monthly meetings organized by ODLSS).  Teachers have collaboration time each week and meet with other teachers and instructional support staff (e.g. special education resource teachers, counselors, art teachers) to plan for instruction, review data, and discuss strategies to address students' needs. REACH Students was implemented for non-tenured teachers in 2012-13, resulting in summative ratings being issued to non-tenured teachers in summer 2013. In 2013-14 tenured teachers in the two lowest levels of performance in 2011-2012, will receive a summative rating being issued in summer 2014. In 2013-14, CPS will begin the process of evaluating tenured teachers in the two highest performance levels in 2011-12 as part of a biennial cycle of evaluation, which will result in a summative rating being issued in summer 2015. The summative rating for all teachers is comprised of 75% teacher practice and 25% student growth. The new principal evaluation system was implemented for all principals in 2012-13. Principal practice was evaluated based on two formal observations completed by a network chief or deputy chief, who supervise the principals. Multiple measures were used to determine student growth. A new school quality review process and principal incentives were developed and aligned to the principal evaluation measures. The summative rating was comprised of 50% principal practice and 50% student growth measures.

# ELL Template for Title III AMAOs

that required Title III DIP for districts that did not meet AMAOs for 2 consecutive years are different from the DIP for districts that did not meet AMAOs for 4 consecutive years. (Title III Public Law For Title III District Improvement Plan (DIP), the district must provide strategies and activities needed to ensure that ELLs meet Annual Measureable Achievement Objectives (AMAOs). Please note 107-110 SEC. 3122 (b) Accountability) Please Note: Rising Star currently has 6 indicators under Comprehensive Planning which are identified as ELL (ell). These six indicators are supported by a corresponding ELL - specific, evidence based Wise Way and should be used for the Title III DIP. However, districts also need to use the other fourteen indicators under SmartStart (5S) and SmartPlan (5P) as they apply to their planning goals for improving the outcomes of English Language Learners.

# Requirements for districts that did not meet AMAOs for 2-3 consecutive years:

The DIP shall specifically address the factors that prevented the district from achieving Title III AMAOs targets 1(progress), 2 (proficiency), and/or 3 (AYP for LEPs). The district must describe objectives and strategies that will ensure that the district meets such objectives.

# Requirements for districts that did not meet AMAOs for 4 or more consecutive years:

(ELP) and academic achievement of ELL students in the district. First, the district must analyze the reasons that the previous DIP did not achieve the desired results. Then, describe the objectives The District shall provide strategies and activities needed to ensure that ELLs meet AMAOs. The district must modify curriculum, instruction, and program to improve English Language Proficiency and strategies of the new or modified curriculum, instruction, and program supported by scientifically based research to improve ELP and academic achievement of ELL students in the district.

# Directions:

Districts that did not meet Title III AMAOs for 4 consecutive years must modify their program, curriculum, and instruction to ensure that ELLs meet AMAOs in future. Therefore, the district must address all of the questions below. However, districts that did not make Title III AMAOs for 2 or 3 consecutive years should address those questions that apply to their plan for improvement.

# Modification of Programs (Models)

. Explain why the current ELL program model(s) should be modified to improve English language proficiency and academic achievement of ELL students in your district.

2. Indicate the new or modified program models that the district will implement.

## Curriculum

1. Explain why the current ELL curriculum should be modified to improve English language proficiency and academic achievement of ELL students in your district.

2. Describe how the district will implement the new or modified curriculum to improve the English language proficiency and academic achievement of ELL students in your district.

CPS does not mandate curriculum for individual schools, but it does recommend research-based instructional materials and instructional best practices for ELLs. The essential vehicle for

implementation of the additive bilingual approach will focus on building capacity through professional development targeting network ISLs, school principals as instructional leaders, bilingual and ESL teachers, and general education teachers serving newcomers (in particular those from low-incidence languages), ELLs and former ELLs, We also intend to establishing stronger collaboration with networks Instructional Support Leaders (ISLs) and chiefs.

The district will systematically identify and recommend research-based models and instructional best practice to principals and teachers, providing resources at professional development sessions and making them available online. A starting point is including guidelines and recommended resources in the Department of Language and Cultural Education's (DoLCE) Bilingual Handbook

3. Describe the process for ensuring that the new or modified curriculum will be aligned with standards-based objectives and criteria.

"early adopters" of CCSS will continue to work closely with DOLCE and the Department of Literacy to ensure consistency of programs for ELLs with standard-based curriculum. A subgroup of bilingual teachers from the early adopter schools will function as a professional learning community/work group to review, analyze, modify and hone curricular units and other instructional tools that emerge All CPS curricula are aligned with the Illinois State Standards, and are in the process of being aligned with the Common Core Standards (CCSS). In the 2012-2013 academic year, 60 schools that are from the early adopters work through the lens of language learners, to ensure that there is alignment to WIDA ELD standards (and SALSA standards where necessary).

professional development from Harvard University on Universal Design for Learning and are designing professional development to facilitate the incorporation of the UDL principles into the standardsmodels). By collaborating with direct liaisons at the network offices in critical areas of Special Education, Education of ELLs, and Early Childhood Education, central office departments will be better based curriculum planning. Central office departments will support and build capacity of the network teams with tools and professional development (using "train-the-trainer" or co-facilitation To complement the newly developed (CCSS-aligned) CPS Literacy Content Framework, DoLCE, the Office of Specialized Education Services and the Department of Literacy are collaborating on developing further guidance, resources, and tools to assist teachers in considering diverse learner profiles at the forefront of planning CCSS-aligned units. All network teams have received able to determine particular needs at the local levels to them target and tailor supports in implementing standards based curriculum and instruction.

CPS is in the process of selecting thematic text-sets that are aligned to CCSS to be offered as a supplement to current language arts curriculum. DoLCE has been involved in the selection process to ensure that the sets reflect appropriate choices for teachers to align instruction based on students English language proficiency levels according to WIDA ELD standards, and that the rigor and complexity of Spanish language texts are parallel to the Common Core literacy standards for English. CPS has been invited to participate in the national "Understanding Language" initiative based out of Stanford that "aims to heighten educator awareness of the critical role that language plays in the new Common Core State Standards and Next Generation Science Standards." District participation in this work may include reviewing exemplars and other resources for instruction that is based on CSS and is tailored to meet the instructional needs of ELLs.

the language needs of all students. In addition, DoLCE will develop a calendar of PD activities targeting school and network staff on topics related to the alignment of the newly adopted CCSS, WIDA DOLCE and the Department of Literacy are also collaborating on development of a district language and literacy framework to facilitate curriculum planning and instructional practices that address ELD and SALSA standards and other issues related directly to effective instructional methodology.

Furthermore, by establishing this joint effort the district Currently most schools serving ELLs have a Bilingual Lead Teacher (BLT) or a person designated by the school principal whose role is to support instruction, coordinate program implementation and students, as well as receive district updates and technical support. Themes include lesson planning, time distribution, assessments, and leadership skill-building. For FY2013, DoLCE will implement a advise school leadership on decisions affecting ELLs. DOLCE schedules quarterly forums for the BLTs each school year in which they collaborate in planning activities to assist their colleagues and new approach to our current BLT forums. The planning and content of the BLT forums will be developed as a joint effort between DoLCE and Network staff. This approach will ensure that network ensures clear means of communication between network and central staff that will clearly benefit the ELL population.

2. Describe the process for ensuring that the district aligns ELL instruction with standards and provides instruction/activities that meet the needs of ELLs.

DOLCE is participating in a series of "Grade Level Release Days" organized by the Department of Literacy to prepare teachers in "Early Adopter" school in the development of unit plans and performance assessments aligned with CCSS. DoLCE's Bilingual Specialists serve as facilitators on these release days. This year BLTs will participate in Professional Learning Community monthly meetings. Their charge is to promote new instructional models for ELLs, and integrate these models into the district's CCSS. in addition, The Department of Literacy has already presented about the CCSS and Illinois English Language Proficiency in the last quarterly BLT forum.

3. Describe how individual ELL student assessments will be used to guide instruction.

PODER assessment as a tool to determine students' Spanish language development levels and inform more targeted native language instruction in Spanish. In the interim, some networks are working to English literacy about the native literacy skills so that they can be thoughtful in building upon these assets and facilitating cross-linguistic transfer. The district is anticipating the availability of the languages; Schools have recently volunteered to pilot the EDL2 as a formative assessment tool for Spanish literacy, using the data to enhance Spanish literacy instruction and inform teachers of pilot the LAS Links assessment for a similar purpose. The district will ensure that data analysts housed in the networks will analyze ELL assessment data and work in collaboration with network range of available instruments for assessing individual ELL students are already being used to guide instruction. These include ACCESS, and DIBEL/IDEL. Teachers rely on the data from these assessments to design differentiated instruction for ELLs, including grouping most effective for promoting language development. ### LEA Determinations NA2 Requirement

For LEAs designated as "Needs Assistance" for two or more consecutive years (NA2) under the LEA Determinations process, ISBE, in accordance with Section 616(e) of IDEA and 34 CFR 300.604, must choose one or more enforcement actions. #### APPROVE APPLICATION FOR A MODIFICATION OF ISBE RULE

#### THE CHIEF EXECUTIVE OFFICER RECOMMENDS:

That the Chicago Board of Education (the "Board") approves the application for a modification of an Illinois State Board Education (ISBE) rule regarding the electronic No Child Left Behind (NCLB) School and District Improvement Plans.

**PUBLIC HEARING AND NOTICES:** A public hearing on the application for a modification will be held on January 22, 2014, in accordance with Section 2-3.25g of the Illinois School Code. Notice was published at in a Chicago newspaper and provided to State legislators representing Chicago and collective bargaining agents as required by Section 2-3.25g of the Illinois School Code.

**DESCRIPTION OF APPLICATION:** The request for a modification regarding the electronic NCLB School and District Improvement Plan is as follows:

Under Section 1116 of NCLB, each school identified for school improvement must submit a school improvement plan. Under the 23 Illinois Administrative Code Section 1.85(d), the ISBE requires that each revised school or district improvement plan must be submitted to the State Superintendent using an electronic format made available for this purpose. The ISBE currently requires that schools and districts submit these plans through the ISBE electronic system.

CPS schools currently prepare Continuous Improvement Work Plan (CIWP) every 2 years to satisfy the requirements set forth in Section 34-2.4 of the Illinois School Code. The CIWP is completed through the CPS electronic tool. In an effort to eliminate duplication of effort, CPS would like to use the CIWP which will at least include all the components required by NCLB and the ISBE's electronic system.

This modification would allow the district and its schools to use the CIWP to comply with its school improvement plan requirements.

**AUTHORIZATION:** Authorize the Chief Executive Officer to execute the application described above and submit it to the ISBE in accordance with Section 2-3.25g of the School Code.

The Board Secretary noted for the record that Board Report 14-0122-EX4 will be Withdrawn from Agenda.

APPROVE UPDATES TO THE 2012-2014 CONTINUOUS IMPROVEMENT WORK PLANS AND RELATED BUDGETS FOR SCHOOLS ON PROBATION AND FOR SCHOOLS WITH SCHOOL IMPROVEMENT STATUS

#### THE CHIEF EXECUTIVE OFFICER RECOMMENDS THE FOLLOWING:

Approve updates to the 2012-2014 Continuous Improvement Work Plans (CIWPs) and related budgets for Fiscal Year 2014 for schools on probation and for schools with state or federal school improvement status.

**DESCRIPTION:** The Chief Executive Officer is requesting approval of updates to the 2012-2014 CIWPs for correcting academic deficiencies and related FY2014 budgets for the schools noted on the attached Exhibit A. These schools are on probation under the Chicago Board of Education's Performance, Remediation and Probation Policy and/or are in school improvement status under the No Child Left Behind Act (NCLB) for the 2013-2014 school year.

In accordance with CPS's annual budget cycle, each school's 2-year CIWP (originally approved by the Board under Board Report 12-1219-EX2 for schools on probation status and/or in school improvement status at that time) has been updated for the second year and related budgets have been developed. The CIWPs were developed pursuant to Sections 5/2-3.25d and 5/34-2.4 of the Illinois School Code. Board approval of school improvement plans is required for schools placed on probation pursuant to Section 5/34-8.3 and schools designated by the Illinois State Board of Education (ISBE) as being in school improvement status pursuant to Section 5/2-3.25d. These plans include specific steps that the Local School Councils and school staff must take to correct deficiencies and specific objective criteria by which the schools' subsequent progress shall be judged.

Individual CIWPs and budgets were developed collaboratively at each school with the assistance of the Network Chiefs of Schools, the Office of Innovation and Incubation, the Academy of Urban School Leadership (AUSL), the Office of Management and Budget, Local School Councils, parent and community representatives and school personnel, as applicable. Each school's CIWP includes specific priorities and strategies, and each school's budget includes specific expenditures, identified for correcting educational and operational deficiencies that resulted in the school being placed on probation or in school improvement status. As applicable, a Parent Compact and Parent Involvement Plan were appended to the CIWPs.

Once submitted to the Network Chief of Schools Offices, Office of Innovation and Incubation, or AUSL, CIWPs were reviewed to ensure that: areas in need of improvement were addressed, the stated targets and activities were consistent with trend analyses and analysis of current conditions and that plans were supported by schools' discretionary school improvement (state and federal) funds.

Monitoring of and support for these CIWPs will be the responsibility of the Network Chief of Schools Offices, Office of Innovation and Incubation, Office of Strategic School Support Services, or AUSL, as applicable, with the assistance of the Office of Accountability and the Office of Network Support. The Network Chief of Schools, Chief of Strategic School Support Services, or the Chief Executive Officer of AUSL are authorized to modify a probation school's CIWP as necessary to correct deficiencies throughout the school year.

Copies of CIWPs will be available at each school, at each Network Office, and online at www.cps.edu.

FINANCIAL: Within budgetary appropriations.

#### 14-0122-EX5

#### APPROVE RESTRUCTURING PLANS FOR SCHOOLS CLASSIFIED AS IN NEED OF RESTRUCTURING UNDER THE NO CHILD LEFT BEHIND ACT (NCLB)

#### THE CHIEF EXECUTIVE OFFICER RECOMMENDS:

That the Board approve restructuring plans for schools that have recently entered restructuring status under the federal No Child Left Behind Act (NCLB).

**DESCRIPTION:** A list of Chicago Public Schools requiring Board approval of restructuring plans is set out in Exhibit A. This includes schools that entered restructuring status in the 2011-2012, 2012-2013, or 2013-2014 school years.

When reviewing the list of schools on the "Restructuring Implementation" it is important to remember that school performance as measured by the Chicago Public Schools on the former Performance Policy Rating and/or new School Quality Rating Policy reflects a picture of school quality that is more comprehensive than the current rating system under AYP. Enacted in 2002, NCLB requires that all schools demonstrate that 100% of students are at the meets/exceeds level of performance on state tests by 2014. This goal ensures that virtually no schools across the state will meet AYP and even schools at the highest performance levels – but still short of the 100% goal – will be required to submit restructuring plans.

A school is placed in NCLB restructuring status if it fails to make Adequate Yearly Progress (AYP) for five consecutive years. Upon being identified as in need of restructuring, a school is placed in "Restructuring Planning" status, and the district must develop a restructuring plan. If the school fails to make AYP for a sixth year, the school is placed in "Restructuring Implementation" status, and the restructuring plan must be implemented at the start of the subsequent school year.

NCLB requires a district to implement one of the following alternative school governance arrangements at a school with restructuring status consistent with State law: "(1) Reopen the school as a public charter school; (2) Replace all or most of the school staff who are relevant to the school's failure to make AYP; (3) Enter into a contract with an entity with a demonstrated record of effectiveness to operate the school; (4) Turn the operation of the school over to the state; or (5) Any other major restructuring of the school's governance arrangement that makes fundamental reforms, such as significant changes in the school's staffing and governance, to improve student academic achievement and that have substantial promise of enabling the school to make AYP." Most restructuring plans in CPS and other districts reflect "other major restructuring."

In developing the attached restructuring plans, a range of strategies and measures were considered by the school principal and the Network Chief of Schools, Office of Innovation and Incubation, Office of Strategic School Support Services, or AUSL, as applicable. School performance data were analyzed to establish an individual plan for each school that targets specific interventions that address identified needs and deficiencies. Parents and teachers at each school were provided with the opportunity to comment on the plan.

Monitoring and support of the DIP will be the responsibility of the Network Chief of Schools, Office of Innovation and Incubation, Office of Strategic Support Services, or AUSL, as applicable. The Chief Executive Officer or designee is authorized to modify a school's restructuring plan as necessary in order to keep information current and respond to ISBE and US Department of Education requirements.

The complete restructuring plan for each school is on file in the Office of Accountability.

FINANCIAL: Within budgetary appropriations.

CONTINGENT APPROVAL: Approval to open one new elementary school campus in the fall of 2012 and two new elementary school campuses in the fall of 2013 and the execution of the amendments to the Charter School Agreement are contingent upon a final review and approval of the new elementary school proposals, an assessment of the District's need for these charter school campuses based upon demographics and student demands, evidence of community support, any required subsequent public hearings, and Board approval of the proposed school sites. Approval of the 2012 and 2013 campuses is also contingent upon the school operator meeting benchmarks established by the Office of Innovation and Incubation. These benchmarks will be communicated to the school operator in a formal Letter of Conditions with all deadlines to be met by March 15, 2012 for the 2012 campus, and March 15, 2013 for 2013 campuses. The Office of Innovation and Incubation will oversee the enforcement of these deadlines; failure to meet these deadlines may, at the option of the Board, result in the rescission of the authority granted herein and the denial of the approval to open these new campuses. A final review of these new campus proposals will be conducted by the Chief Executive Officer on or before April 15, 2012 for the 2012 campus, and April 15, 2013 for 2013 campuses to determine final approval or denial of the new campus proposals. The CEO's recommendation to approve the new elementary school campuses will be subject to Board approval as indicated by subsequent amendments to this Board Report.

All sites for the 2012 and 2013 campuses must be located in high need or overcrowded communities.

CHARTER EVALUATION: After receiving the charter renewal proposal, the Office of New Schools conducted a comprehensive evaluation of L.E.A.R.N. Charter School's performance and operations. This evaluation included a review of the proposal, facilities surveys, financial and governance analyses, and site visit of the school in which teaching and learning, leadership and governance, learning community and services for ELL students and students with special needs were assessed. A public hearing was conducted on Thursday, March 10, 2011 to receive public comment on the application to renew the Charter School Agreement with L.E.A.R.N. Charter School for an additional five years. In addition, the Office of New Schools evaluated the school's student performance. From 2006-2007 to 2009-2010, L.E.A.R.N. Charter School received 16 out of 24 high ratings and 6 out of 24 middle ratings on their absolute student indicators found in the framework put forth by the district for assessing charter school pupil performance. From 2006-2007 to 2009-2010, (L.E.A.R.N.) Charter School's student attendance averaged 95.8%. In 2010, the percentage of students meeting/exceeding state standards on the ISAT Composite was 83.1%, an increase of 14.6 percentage points from 2006-2007. The committee recommends that, based on the school's performance on these and other accountability criteria, L.E.A.R.N. Charter School be authorized to continue operating as a charter school.

**RENEWAL TERM:** The term of L.E.A.R.N. Charter School's charter and agreement is being extended for a five (5) year term commencing July 1, 2011 and ending June 30, 2016.

**AUTHORIZATION:** Authorize the General Counsel to include relevant terms and conditions, including any indemnities to be provided to the charter school, in the written Charter School Agreement and amendment, which shall reflect resolution of any and all outstanding issues between the Board and the governing body of the charter school including, but not limited to: site location, enrollment, funding, educational program, financial controls and practices, academic accountability and evaluations. Authorize the President and Secretary to execute the Charter School Agreement and amendment. Authorize the Interim Senior Executive Director of the Office of New Schools to issue a letter notifying the Illinois State Board of Education of the action(s) approved hereunder and to submit the approved proposal and signed Charter School Agreement to the Illinois State Board of Education for certification.

LSC REVIEW: Approval of Local School Councils is not applicable to this report.

**FINANCIAL:** The financial implications will be addressed during the development of the 2014-2015 fiscal year budgets. Since the School Code of Illinois prohibits the incurring of any liability unless an appropriation has been previously made, expenditures beyond FY14 are deemed to be contingent liabilities only, subject to appropriation in subsequent fiscal year budgets.

CHARTER APPLICATION PROPOSAL: The Intrinsic Charter School proposal was submitted by Intrinsic Schools and received by the Board in two tiers: a Tier 1 proposal was due in September 2013, and a Tier 2 proposal completed the proposal in accordance with the Charter Schools Law, in December 2013. Intrinsic Charter School's mission is to prepare all students for 21st century post-secondary success and to cultivate independent, intellectually curious learners. To achieve this, the Intrinsic Charter School model leverages technology to personalize learning and is informed by the experience of great teachers. At Intrinsic Charter School, students will have the opportunities to navigate their own learning and find their passions through purposefully designed curricular experiences. The model includes three innovative features: personalized learning, student autonomy, and technology-enabled instruction. The school environment will balance high expectations, often seen at no-excuses charter schools, with the room to be inquisitive, characteristic of Montessori schools. The Intrinsic culture will be characterized by a focus on mastery, autonomy and community. The school is slated to open in the fall of 2015 serving a maximum of 186 students in grade 9. The school will add grades in subsequent years with an at capacity enrollment of 959 students in grades 7-12. The school will be located at 4540 W. CONTINGENT APPROVAL: Final approval of this proposal is contingent upon the 2013-2014 academic performance of the existing Intrinsic Charter School on the School Quality Rating Policy (SQRP) as indicated by the Chicago Public Schools' Department of Accountability. It is expected that the existing Intrinsic Charter School's 2013-2014 academic performance will result in a tier 1 or tier 2 rating on the SQRP. Final approval is also contingent upon Intrinsic Schools submitting information regarding clear metrics and criteria to evaluate network and school leaders and a viable permanent facility by January 1, 2015. The specifics regarding these contingencies and the requested submission will be communicated by the Chief Executive Officer or her designee to Intrinsic Schools in a formal Letter of Conditions. The Board hereby directs the Chief Executive Officer or her designee to monitor the deadlines set forth in the Letter of Conditions, oversee the evaluation of the submission by Intrinsic Schools, and provide a written report regarding compliance with the Letter of Conditions to the Board by October 1, 2014. Thereafter, this will be re-presented to the Board for a determination regarding whether the contingencies have been

satisfied. Failure to meet this contingency according to the terms set forth in the Letter of Conditions may, at the option of the Board, result in the rescission of the authority granted herein.

**DESCRIPTION:** The Charter Schools Law (105 ILCS 5/27A-1 et seq., as amended) provides that up to 70 charter schools may be operated in the City of Chicago. Proposals to operate charter schools are submitted to the Board for evaluation pursuant to the standards set forth in 105 ILCS 5/27A-8, and the Board convenes a public meeting to obtain information to assist in its decision to grant or deny each proposal and report its action to the Illinois State Board of Education. The State Board determines whether the approved charter school proposal and the proposed contract satisfy the provisions of the Charter Schools Law and, if so, certifies the charter school.

CHARTER APPLICATION PROPOSAL: The Intrinsic Charter School proposal was submitted by Intrinsic Schools and received by the Board in two tiers: a Tier 1 proposal was due in September 2013, and a Tier 2 proposal completed the proposal in accordance with the Charter Schools Law, in December 2013. Intrinsic Charter School's mission is to prepare all students for 21st century post-secondary success and to cultivate independent, intellectually curious learners. To achieve this, the Intrinsic Charter School model leverages technology to personalize learning and is informed by the experience of great teachers. At Intrinsic Charter School, students will have the opportunities to navigate their own learning and find their passions through purposefully designed curricular experiences. The model includes three innovative features: personalized learning, student autonomy, and technology-enabled instruction. The school environment will balance high expectations, often seen at no-excuses charter schools, with the room to be inquisitive, characteristic of Montessori schools. The Intrinsic culture will be characterized by a focus on mastery, autonomy and community. The school is slated to open in the fall of 2017 serving a maximum of 186 students in grade 9. The school will add grades in subsequent years with an at capacity enrollment of 959 students in grades 7-12. The school will be located at a location to be determined. A community meeting and a public hearing on charter school submissions submitted in 2013 were held on December 16, 2013 and January 7, 2014, respectively.

If approved, the identification of a facility will be required to be submitted to the Board for consideration.

**TERM:** If approved, the term of the Intrinsic Schools charter and agreement shall commence July 1, 2017 and end June 30, 2022.

**AUTHORIZATION:** Authorize the General Counsel to include relevant terms and conditions, including any indemnities to be provided to the charter school, in the written Charter School Agreement. Authorize the President and Secretary to execute the written Charter School Agreement. Authorize the Senior Director of the Office of New Schools to issue a letter notifying the Illinois State Board of Education of the action(s) approved hereunder and to submit the approved proposal and signed Charter School Agreement to the Illinois State Board of Education for certification.

LSC REVIEW: Approval of Local School Council is not applicable to this report.

AFFIRMATIVE ACTION: Not applicable.

**FINANCIAL:** The financial implications will be addressed during the development of the 2017-2018 fiscal year budget. Since the School Code of Illinois prohibits the incurring of any liability unless an appropriation has been previously made, expenditures beyond FY18 are deemed to be contingent liabilities only, subject to appropriation in subsequent fiscal year budgets.

#### **GENERAL CONDITIONS:**

Inspector General - Each Party to the agreement shall acknowledge that, in accordance with 105 ILCS 5/34-13.1, the Inspector General of the Board of Education has the authority to conduct certain investigations and that the Inspector General shall have access to all information and personnel necessary to conduct those investigations.

Conflicts - The agreement shall not be legally binding on the Board if entered into in violation of the Provisions of 105 ILCS 5/34-21.3, which restricts the employment of, or the letting of contracts to, former Board members during the one-year period following expiration or other termination of their terms of office.

Indebtedness - The Board's indebtedness Policy adopted June 26, 2006 (96-0626-P03), as amended from time to time, shall be incorporated into and made a part of the agreement.

Ethics — The Board's Ethics Code adopted May 25, 2011 (11-0525-PO2), as amended from time to time shall be incorporated into and made a part of the agreement.

### AUTHORIZE NEW AGREEMENT(S) WITH SUPPLIERS FOR NATURAL GAS SUPPLY SERVICES

#### THE CHIEF EXECUTIVE OFFICER REPORTS THE FOLLOWING DECISION:

Approve entering into agreement(s) with one or more Natural Gas Suppliers to provide natural gas supply services to all of the Board's facilities. Suppliers will be selected on a competitive basis pursuant to a Request for Proposal issued pursuant to Board Rule 7-2. Written agreement(s) with the supplier(s) will be negotiated. No payment shall be made to any supplier prior to execution of a written agreement. The authority granted herein shall automatically rescind as to each supplier in the event a written agreement for such selected supplier is not executed within 120 days of the date of this Board Report. Information pertinent to the agreement(s) and this authorization is stated below.

THE RFP:

The Board issued a Request for Proposals ("RFP") for Natural Gas Procurement for the Board which invited the submission of proposals from Natural Gas Suppliers certified by the Illinois Commerce Commission to provide natural gas supply services to all of the Board's facilities. The RFP contained a form of natural gas supply contract ("Agreement") that is preferred by the Board to be entered into between the Board and the selected Proposer(s). The Agreement, which has been developed by the North American an Energy Standards Board, is the most widely used contract in the natural gas supply market and will be adapted to incorporate standard Board contract terms.

CURRENT

AGREEMENT: The Board has current contracts for natural gas supply with Integrys Energy (which is

scheduled to expire on March 31, 2014) and Constellation Energy (which is scheduled to

expire on June 30, 2014).

PROPOSALS: Each Proposer has been invited to submit a proposal for a period of twenty-four (24)

months and a period of thirty-six (36) months. The natural gas supply contract will be

awarded by the Board based on the lowest cost qualified Proposer.

TERM: The initial term of the Agreement(s) will commence on April 1, 2014 and shall be for a

designated term of twenty-four (24) or thirty-six (36) months and may include options to renew or extend the Agreement(s). The term of the Agreement(s) and the number and period of any renewal or extension options will be determined by the Chief Financial Officer and the Chief Facilities Officer dependent upon pricing and market conditions.

EARLY TERMINATION RIGHT:

The Board will have the right to terminate the Agreement(s) at any time with 30 days prior

written notice.

SCOPE OF SERVICES:

The selected Proposer(s) will supply the Board's full requirements for natural gas supply (including, but not limited to, space and hot water heating to all of the Board's facilities) for a term of up to twenty-four (24) or thirty-six (36) months under a block index purchase model that will allow the Board to purchase its required natural gas consumption in blocks

each month dependent on market forecast during the term of the Agreement(s).

OUTCOMES: The Board will secure natural gas supply services at a competitive rate while at the same

time providing the flexibility of being able to fix prices and make strategic purchases of incremental blocks of natural gas as part of the existing CPS Energy Purchasing Strategy. The Board will also be able to align its purchasers under the NYMEX Ni Hub market versus the Chicago Citygate market which will improve the Board's ability to monitor and police prices provided by its natural gas supplier(s). The Agreement will provide the Board with estimated annual savings of \$800,000 and \$2,400,000 over three

years.

SECURITY DEPOSIT:

The Board may be required to pledge security to secure the performance of its obligations under the Agreement(s) in a form acceptable to the selected Proposer(s), including, without limitation, a standby irrevocable letter of credit, a prepayment, a

security interest in an asset or a performance bond or guaranty.

COMPENSATION: The selected Proposer(s) will be compensated at the rates set forth in the Agreement(s)

based on the amount of natural gas required by the Board facilities each month.

AUTHORIZATION: Subject to the written approval of the Chief Financial Officer, authorize the President and

Secretary to execute the Agreement(s) with Proposer(s) selected by the Evaluation Committee as described in the RFP. Authorize the General Counsel to include insurance and indemnification provisions and other relevant terms and conditions in the Agreement(s). Authorize the Chief Facilities Officer and General Counsel to execute all

ancillary documents required to administer or effectuate the Agreement(s).
