

**July 27, 2022 Board Meeting Written Comments
Received between Monday, July 25th and Thursday, July 28th
Submitted via Written Comments Form**

1	<p>Please get rid of all covid-related restrictions/mandates on our students including quarantines, mandated masking and open up lunch cafeterias, water fountains and all social clubs and functions. Adults have been living normally for almost 2 years, it's time to give our children that chance. We have already done so much (mental and emotional) damage to our children by closing schools, requiring quarantining and mandating masking that we need to start giving them a chance to keep up with school and have normal childhoods.</p>
2	<p>As a student who attends George Washington High school I feel let down I'm disappointed in the school system for continuing to let students walk around a cps building even after a metal beam fell from the ceiling. The building is old the equipment is old not all of the a/c units work the ventilation is old so some parts of the building don't get heat... I feel as a cps student I'm entitled to a safe and updated learning environment</p>
3	<p>Good afternoon. My name is Donald Davis, a resident of the East Side and 10th Ward for the past 18 years. I am a National Board certified Social Science teacher with 22 years experience teaching at neighborhood high schools in CPS. The last 8 years I have taught at George Washington H.S., just five minutes from my house. I'm speaking today to demand that the Board of Education consider the needs of my community and school in funding a NEW school building and athletic facilities for Washington H.S.</p> <p>On the last day of school with students in June, part of the second floor ceiling collapsed, injuring a staff member. We were very fortunate that no one else was injured by this incident.</p> <p>Our school has seen increased enrollment of a couple hundred students over the past few years, and as a result is said to be at 118% capacity. We have a run-down mobile unit with half of the room a/c units not functioning, and we lack central air in the hallways and common spaces like the student lunchroom, auditorium, and offices. Many windows are bolted shut and broken. Cabinets and doors to classrooms are run down as well. Hallways are crowded, students worry about their safety, and we lack sufficient space to accommodate our diverse learners, English learners, and parent and teacher meetings.</p> <p>Yet Washington H.S. has been celebrated as a Democracy School by the McCormick Foundation. We have the highest on-track rate in our network with a top-ranked IB program and many AP and Dual Credit courses to allow students to earn college credits before graduation.</p> <p>Meanwhile our volleyball, baseball and softball, E-sports, and soccer teams have experienced considerable success over the past decade. Our boys soccer team finished 3rd in the State, which the Board recognized and celebrated. Yet our teams have to travel three miles to Calumet Park for practices and matches, while competing with other teams for the space even though we pay to reserve it.</p> <p>CPS and the City of Chicago express a commitment to reversing the effects of climate change as well with its Climate Action Plan, so investing in new buildings would help address this concern that impacts our nation and world. There needs to be concrete action steps on a citywide scale to replace school buildings that are dilapidated and</p>

contributing to environmental concerns.
 For all these reasons we demand that the Board of Education consider issues of equity, environmental racism and climate change, and a commitment to investing in neighborhood schools by building a new school building and athletic facilities for George Washington H.S. and the 10th Ward community. We have a petition on Change.org that is signed by 2,000 stakeholders that we hope the Board will take into consideration when deciding where to prioritize its capital investments. Please know that the East Side of the city needs and deserves new green schools to help overcome previous pollution and negative health impacts from industry. Thank you for your time.

| 4 | Every school I been enrolled in including elementary and high school, we lacked resources, AC units, a safe building since they were falling apart and we were always very overpopulated. |
| 5 | I live and work in Chinatown, directly with many parents and teachers from local schools. I do not disapprove of moving forward with the proposed site for the Chinatown High School at the Harold Ickes site and believe the high school should be built elsewhere. As a resident, I would not like to see another instance of displacing Black community members out of Chinatown, especially since many previous tenants of Ickes were promised affordable housing at the proposed site for the new school. The diversity of our Chinatown is one that makes it stronger, and I know from my work that this is also reflected at our local schools as well, by having students across racial, cultural, and class backgrounds learn and be together. |
| 6 | Dear Chicago Board of Education, I am writing in support of Ms. Lauren Bianchi and Mr. Chuck Stark and their continued employment and tenure as CPS teachers. These teachers have shown strong commitment to their school communities through their work to reduce environmental pollutants in the neighborhood and repair the facilities at Washington High School. Their efforts to engage students in their community and civic life should be commended not punished. Sincerely, Cynthia Taines Chicago, IL 60626 |
| 7 | Dear Chicago Board of Education, I am writing to oppose the new inter-governmental contract with the Chicago Police Department. I continue to listen to the youth and educators in CPS who are advocating for mental health supports, college counselors, social workers, nurses, additional teachers, school programs, and electives in their schools. Investing in these student-supportive services is vital, much more so than any funds used for police. According to the research, police in schools cause harm, generating fear and disconnection in the building, and leaving Black, Latino, and special education students more vulnerable to the school-to-prison pipeline. Please vote against the inter-governmental contract with CPD in your Board meeting today. Thank you, Cynthia Taines, Chicago, IL 60626 |
| 8 | The Chicago Board of Education needs to take a stand for free speech and free expression. CPS school teachers Stark and Bianchi should keep their jobs. They did nothing wrong. Shame on CPS for seeking to terminate them for protesting against General Iron. |
| 9 | Dear Chicago School Board, I read in the Sun-Times about the proposal to fire two teachers from George Washington High School over supposed problems with protocol in allowing students to travel to MIT to represent their school in a symposium called Living Climate Futures. I am one of the professors who organized the event at MIT. Chuck Stark through zoom gave a tour of Southeast Chicago with his students to my class of undergraduates at MIT. At the same time, GWHS students spoke live to my class and an |

audience of the MIT community. The GWHS students spoke with such eloquence and passion about their lives, their community and their successful protest to stop the opening of the metal incinerator in their community that I saw tears in the room. The audience gave them a standing ovation. My students later told me that the GWHS students' presentation in person and virtually was the best learning experience of the semester. If Stark is penalized for his part in that event, then I do not know what education and exchange means.

Sincerely yours,

Kate Brown, Thomas S. Siebel Distinguished Professor in the History of Science, MIT

10

Good Morning distinguished Board Members, President Del Valle, & CEO Martinez.

I would like to acknowledge our newest board members Michael Scott Jr., Paige Ponder, and Sulema Novak. On behalf of the parents and caregivers of Acero Schools, welcome!

My name is Maria Lopez and I have two daughters that attend Acero's Brighton Park Elementary. Alondra will be in 4th grade and Victoria in 1st. Despite the pandemic and remote learning, both of my daughters have not fallen behind and are at the academic level they need to be. This is all because of the amazing work Acero and the teachers have done to ensure our students are learning.

I am proud to be a part of a network that goes beyond the four walls of our school building. Acero Schools and Brighton Park create multiple opportunities for families to receive assistance and further engage. They've offered pandemic support like vaccination clinics and food pantry options. They have also heavily invested in Their Padres Comprometidos program. This programming allows us to be better stewards for our children's education and learn skills to help our children grow academically and emotionally.

Through this amazing collaboration between Acero Schools and UnidosUS, I had the privilege of advocating on the importance of being an involved parent in a commercial for Sephora. I also recently was interviewed on "Despierta America" on ways we can support our students' social-emotional learning. Because of this partnership, I attended the UnidosUS conference in San Antonio as a parent leader and earned funding towards an Acero Brighton Park community project that will provide more mental health resources for our families.

Acero Schools and Brighton Park have given me and my daughters opportunities to grow. I can say the same for the families that attend our schools - I've seen it and they are extremely committed. I invite the board to visit Brighton Park and ask that you please consider supporting our network's charter renewal and grant Acero the longest term possible.

Thank you.

Buenos días, distinguidos miembros de la junta, presidente Del Valle y director ejecutivo Martínez.

Quiero reconocer a nuestros miembros más nuevos de la junta, Michael Scott Jr., Paige Ponder y Sulema Novak. De parte de los padres y cuidadores de Acero Schools, ¡bienvenidos!

Mi nombre es María López y tengo dos hijas que asisten a la Escuela Primaria Brighton Park de Acero. Alondra estará en 4to grado y Victoria en 1ro. A pesar de la pandemia y el aprendizaje remoto, mis dos hijas no se han quedado atrás y están en el nivel académico que deben tener. Todo esto se debe al increíble trabajo que Acero y los maestros han hecho para garantizar que nuestros estudiantes estén aprendiendo. Estoy orgullosa de ser parte de una red que va más allá de las cuatro paredes de nuestros edificios. Acero Schools y Brighton Park han creado oportunidades para que

las familias reciban asistencia y participen más. Ofrecieron apoyo durante la pandemia como clínicas de vacunación y despensa de alimentos. También han invertido en el programa Padres Comprometidos. Este programa nos enseña a ser mejores administradores de la educación de nuestros estudiantes y ayudar a nuestros hijos a crecer académica y emocionalmente.

A través de esta increíble colaboración entre Acero y UnidosUS, tuve el privilegio de abogar por la importancia de ser un padre involucrado en un comercial de Sephora. También fui entrevistado recientemente en “Despierta América” sobre las formas en que podemos apoyar el aprendizaje socioemocional de nuestros estudiantes. Debido a esta asociación, asistí a la conferencia UnidosUS en San Antonio como padre líder y obtuve fondos para un proyecto comunitario de Acero Brighton Park que proporcionará más recursos de salud mental para nuestras familias.

Acero Schools y Brighton Park han creado oportunidades para crecer para mí y mis hijas. Puedo decir lo mismo de las familias que asisten a nuestras escuelas que están extremadamente comprometidas. Invité a la junta a que visite Brighton Park y les pido que consideren apoyar la renovación de nuestra red y conceder a Acero el plazo más largo posible.

Gracias.

-
- 11 Good Morning President Del Valle, CEO Martinez, and valued Board Members. I would like to start by welcoming our newest board members Michael Scott Jr., Paige Ponder, and Sulema Novak. Welcome to CPS.
- I am here representing the Acero Charter School Network. My name is Lourdes Lopez and I have both of my daughters attending Bartolome de las Casas in Pilsen. My daughters have been enrolled at Casas since Kindergarten. Despite having my neighborhood school within proximity I ultimately chose an Acero School. My daughter Naomi Ramirez is now in 8th grade and Yaretzi will be in 5th grade and both are honor roll students.
- I made a commitment to participate in opportunities to support our schools mission of inclusion and equity by volunteering at school functions. I participate in the school BAC meetings and I've completed the curriculum, Padres Comprometidos, created by UnidosUS. This course taught parents about how to work alongside our school leaders and provided us tools to support our students in their academic and social-emotional development. I also learned about the importance of advocating for my daughters' education in this upcoming charter renewal that Acero Schools is undergoing.
- The network provides ongoing communications on resources regarding local community partners, hosted several vaccination clinics, and assisted families with signing up for internet access through Chicago Connected. These examples along with countless others only begin scratching the surface of the amazing work Acero does.
- Acero Schools and Bartolome de las Casas are made up of families from the community, for the community. I am proud to have my daughters attending Acero and I ask that this board gives our network the longest term available and invite you all to come visit our school.
- Thank you.

Buenos días, presidente Del Valle, CEO Martínez y valiosos miembros de la Junta. Me gustaría comenzar dando la bienvenida a los nuevos miembros de la junta, Michael Scott Jr., Paige Ponder y Sulema Novak. Bienvenido a CPS.

Mi nombre es Lourdes López y estoy aquí representando las Escuelas Acero. Tengo a mis dos hijas asistiendo a Bartolomé de las Casas en Pilsen. Mis hijas han estado en Casas desde Kindergarten. A pesar de tener la escuela de mi vecindario cerca, finalmente elegí una Escuela Acero. Mi hija Naomi Ramírez ahora está en 8° grado y

	<p>Yarezi estará en 5° grado y ambas están en el cuadro de honor. Hice un compromiso para participar en oportunidades extracurriculares y apoyar la misión de inclusión y equidad de nuestras escuelas al ofrecerme como voluntario en eventos escolares. Participó en las reuniones de BAC y completé el plan de estudios, Padres Comprometidos, creado por UnidosUS. Este curso enseñó a los padres cómo trabajar con nuestros líderes escolares y nos brindó herramientas para apoyar a nuestros estudiantes en todas las áreas, incluido su desarrollo académico y socioemocional. También aprendí sobre la importancia de abogar por la educación de mis hijas en esta próxima renovación de estatutos de las Escuelas Acero. La red proporciona actualizaciones sobre recursos relacionados con los socios de la comunidad local, organizó varias clínicas de vacunación y ayudó a las familias a inscribirse para recibir Internet a través de Chicago Connected. Estos ejemplos y otros, solo comienzan a rascar la superficie del increíble trabajo que hace Acero. Las Escuelas Acero y Bartolomé de las Casas están formadas por familias de la comunidad, para la comunidad. Estoy orgulloso de que mis hijas asistan a Acero y pido que esta junta le dé a nuestra red la renovación más larga disponible y los invito a todos a visitar nuestra escuela. Gracias.</p>
12	<p>I am at parent of a child that attends George Washington High school and a child that attends George Washington Elementary. I am concern about the safety of my children in both schools. The High school is a dangerous place for my daughter to learn. I am worried about the lead pipes and falling light fixtures. I am worried about the crowded hallways and classrooms. My son's elementary is school needs an auditorium and lunchroom. The care room is on the makeshift stage in the slash lunchroom/auditorium. For those that do not know that's where children who may have covid are placed. We have a right to new school buildings, especially New Green Buildings. We want our children to learn in safe and spacious facilities, where the building will not add more pollution in our neighborhood. The old buildings no longer can be patched. We need a new green structure that will help improve the already rancid and heavy smells of our community. Our children have a right to learn in a safe space, my children deserve safety like the children in CPS selective school like Jones Prep. We are demanding a New Green school. We want to be heard, as a parent I furious that I have send my daughter to a school where there is an asbestos warning sign outside the doors. Our children deserve better than patchwork we need new buildings. Thank you</p>
13	<p>My name is Nelly Ramirez, I am here in support of Ms. Bianchi and Mr. Stark. Ms. Bianchi was my daughter's Sociology teacher and Mr. Stark taught my eldest daughter biology. I am here because they were the best teachers to my children. My eldest daughter fell in love with science because of Mr. Stark. He opened a new world for her. He introduced to my daughter to Field Museum youth guide doing class and through that she became a youth mentor in the Field Museum for three summers. She is now a Biology major in Harold Washington hoping to become a science teacher. I appreciate what Mr. Stark did for my daughter and other children in GWHS. He instills curiosity and love of science. Ms. Bianchi was my middle daughter's Sociology teacher. Ms. Bianchi taught her about gender roles and other societal issues that led for great family discussions. MS. Bianchi held space for the kids during the Covid locked down. My daughter was depressed and checked out during that year. It was Ms. Bianchi's class that made her perk up and talk about the issues that were important to her. My son is 5 years old and my daughter graduated 1 year ago and he still says MS. Bianchi because he heard her name so much. My daughter would alway say we learned this Ms. Bianchi class and that. Any educator that can make a child think long after the class is over is an</p>

educator that every parent wants for their child/ children. We need Teachers like Me. Stark and MS Bianchi! George Washington HS parents are behind these amazing educators!

14 You cannot, in good conscience, terminate/fire Lauren Bianchi and Chuck Stark. These teachers are heroes for their students and communities. Firing these teachers for the crime of advocating for better treatment of these communities is absolutely atrocious. These teachers need to continue doing the great work they are doing; uplifting and inspiring students. Please view the petition with 2834 signatures and counting: tinyurl.com/protectlaureenchuck

15 I have attached a PDF of the 100 residents that agree that the location for the new Chinatown/Bridgeport/South Loop high school should be in the 78 neighborhood.
